

# Replacement Soft Tonneau Form STYLESIDE TUBS ONLY

All replacement tonneaus are supplied without attached bunji loops, we will supply you with bunjis suitable for your ute's current button position if you provide the details below. You will need to install the supplied buttons so that they are aligned correctly to your buttons, you will need a centre punch to do this. Each tonneau cover has a specific number of inclusions, you should check the tonneau cover instructions online to see if this tonneau comes with the same number of bunjis as you have installed buttons, if not you can add more to your order for an additional cost. All Tonneaus are all sent automatically with the standard inclusions except as detailed below
